

RALLY

Tuesday October 23

Stand up to protect our
public health care

12 p.m. Queen's Park

**Join us.
It matters.
We can protect public health
care if we take a stand.**

In the provincial election Doug Ford promised to “end hallway medicine” – that means reopening & restoring services.

But the Ford government has now appointed former B.C. Premier Gordon Campbell to do a financial review. Campbell closed & privatized hospitals, cut thousands of front-line staff, contracted out health care services to for-profit companies and clinics, then allowed private clinics to violate the Canada Health Act & charge thousands of dollars in user fees to patients for formerly public health care.

The cuts to OHIP + and mental health funding in Ontario have already started.

We cannot let the government create a budget crisis & then cut and privatize our hospitals, long-term care, home care, our mental health & other vital health care.

Buses are being organized across Ontario.
